'A BIG SCHOOL WITH A BIG HEART'

#AIMHIGH

EDITION: 32 DATE: 2nd December 2024

A Note from Mrs A:

We are really proud of the children this week as they have been completing their end of term assessments. We are seeing so much great progress and the children have worked so hard.

We had some very successful sports events too.

As we are now in December you will see the festivities starting! Christmas is a special time at Beck when children and families of all faiths or no faith have fun together.

Our first event this week is the Hartley Brook Christmas Light Switch On, on Thursday so we hope you can join us.

Staffing update:

At the end of this term two members of our teaching team are moving on to pastures new. Mrs Stroud and Miss Morton will be greatly missed and hard to replace but have some amazing new opportunities so we wish them well. Our music teaching with Mr …. And Miss Mckenzie is already teaching in Year 3 for Miss Morton.

Kind regards

Mrs A

SPOTLIGHT

THIS WEEK'S SPOTLIGHT IS ON…. Learning through role play and real life experiences.

Learning is not all just about Maths and English lessons. This week we have seen some great roleplay and real life experiences. These experiences help to make learning fun and enjoyable but also helps children develop a wide range of knowledge and skills.

Bikeability

Year 6 have had two weeks of Bikeability. They have learned about making sure their bike is safe and also about how to remain in control of their bike at all times. They rode out on the roads and learned how to do this safely: safe for them and safe for other road users.

Road Safety Workshops

FS2 have had some very important Road Safety Workshops. The children learned how to cross the road safely at a Crossing which is a really important skill. The workshop helps children to understand the importance of being safe on roads and near traffic.

Visit to the Medina Mosque

Year 5 children are studying the Islamic Civilisation in History and asked fabulous questions. They learned so much about religious rituals and were impressed by how beautiful the building was.

Design and Technology

Year 5 and Year 2 have also been practising their sandwich and biscuit making for DT. Year 6 Curriculum Workshop will involve parents making truffles with their children as part of an enterprise project.

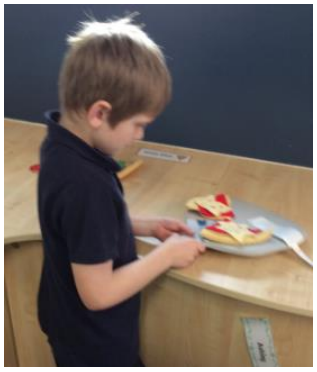

Roleplay in the Pizza Parlour

Our Cosy Cove children have been developing their Maths skills linked to money and amounts by buying pizza ingredients and designing their own pizzas.
